

BKL crane solution for the construction of the new Siemens Campus.

Full service with three strong top-slewing cranes from the BKL crane fleet for the erection of new office buildings.

Munich, 18.11.2024 – In Erlangen, Bavaria (Germany), Goldbeck Südwest GmbH is constructing three new office buildings and a multi-story car park for Module 8 of the Siemens Campus. The construction and services company Goldbeck, which is active throughout Europe, asked the tower crane experts of BKL Baukran Logistik GmbH (BKL), with its rental fleet of over 500 tower cranes, to carry out the lifts, as three large cranes were needed to cover the entire construction site. In order to realise the project economically, the construction crane professionals from BKL Centre/West offered two 400-tonne-metre-cranes TLS 80 20T and a 750-tonne-metre-crane 21 LC 750.

With the bespoke turnkey package, BKL not only rented, but also erected the cranes using its own mobile crane and trucks and. In May, the well-coordinated team assembled the third construction crane, a TLS 80 20T with a radius of 55 metres, a peak load of 11.66 tonnes and a hook height of around 38 metres. The experienced crane technicians used the open space to pre-assemble the jib on the ground. The 230-tonne LTM 1230-5.1 mobile hoisted the crane section up in one lift to save time.

CRANE DATA:

	Hook height:	Radius:	Peak load:	Max. load capacity:
TLS 80 20T (crane 3)	37.6 m	55 m	11.66 t	20 t
TLS 80 20T (crane 2)	49.6 m	55 m	11.66 t	20 t
21 LC 750 (crane 1)	36.9 m	55 m	16 t	48 t

Efficient erection thanks to perfect teamwork.

After the assembly with an LTM 1230-5.1 mobile crane, tower crane 3, a TLS 80 20T with a hook height of 37.6 metres, completely covers the construction site for the third office building.

PRESSEINFORMATION

Three large cranes for the new Siemens Campus.

A total of two 400- and one 750-tonne-metres construction cranes let the three office complexes grow.

Indications of weight in tonnes refer to metric tons

About BKL.

BKL Baukran Logistik GmbH specialises in crane rental, sales and service. With over 50 years of experience and around 400 employees in Munich, Ingolstadt, Rosenheim, Frankfurt, Aschaffenburg, Nuremberg, Ansbach, Hannover and Hildesheim the company is one of Europe's largest manufacturer-independent, full-service providers of crane solutions. BKL's crane fleet offers over 500 tower cranes with a radius from 22 to 90 metres, plus more than 130 all terrain mobile cranes from 30 up to 700 tonne giants and 25 mobile construction cranes with a radius of up to 65 metres. Moreover, BKL customers benefit from the bespoke turnkey package, certified according to DIN EN ISO 9001 and SCC^P, including planning, logistics and transportation, as well as the 24-hour emergency service. BKL's reference projects include the Allianz Arena, BMW Welt, the European Central Bank and Terminal 3 at Frankfurt Airport. For further information, please see www.bkl.de.
